Largest Resort in Dominican Republic Goes “Green” with GEM Electric Vehicles

Fargo, ND – June 22, 2009 – Electric automaker Global Electric Motorcars helps Dominican Republic eco-resort Cap Cana boost its green operations by providing the 30,000 acre Caribbean luxury getaway with zero-emissions, environmentally friendly Neighborhood Electric Vehicles (NEVs). The timely partnership signals the widespread trend of hotels and resorts adopting an eco-friendly stance on daily operations.

As one of the largest luxury resort developments in the Caribbean, Cap Cana has been hailed as the “world’s next great destination” by *Miami Monthly*. In addition to its dedication to eco-tourism and the upkeep of conservation areas, the resort touts a Jack Nicklaus-designed Punta Espada golf course, the largest marina in the Caribbean, luxury housing and much more. All the GEM electric vehicles ordered to date will be used in the Green Village section of Cap Cana, which is an automobile-free subdivision of 480-fully-furnished and professionally designed bungalows, each with a pool and outdoor master bath.

“The GEM car is a perfect fit with Cap Cana’s environmentally-friendly master plan,” says Aldo H. Mariotti, President of Smart Carts, LLC, the local GEM distributor who facilitated the partnership with Cap Cana. “The combination of the GEM car’s high-quality performance and technology, its stylish design, and how cost-effective it is to operate sold us on the GEM cars,” added Mr. Mariotti.

Cap Cana purchased almost 150 GEM cars, including GEM e4 four-passenger models, GEM e6 six-passenger models, and utility models, and is on target to purchase additional GEM cars in late 2009. The new GEM cars will be used by the facility and by Cap Cana guests. The facility will use the GEM cars for transporting guests, and for maintenance, such as housekeeping, grounds maintenance, room service and security. Guests of Cap Cana may also rent a GEM car for their own use, such as local shopping, dining, entertainment and sightseeing.

“Global Electric Motorcars is delighted to play a part in this breakthrough concept in luxury resorts in the Dominican Republic,” says GEM President and COO Rick Kasper. “When Aldo brought us his unique ideas for GEM cars in the Green Village we were very impressed and have enjoyed working with him to bring his creative ideas to reality.”

About Global Electric Motorcars:

As a wholly owned subsidiary of Chrysler Group LLC, Global Electric Motorcars has been the market leader in the low-speed, Neighborhood Electric Vehicle (NEV) industry for the past 11 years and has more than 40,000 GEM battery-electric vehicles on the road worldwide. GEM cars are used by local, state and national government agencies, resorts, master planned communities, universities, medical and corporate campuses, as well as by sports teams, taxi-shuttle services, and individuals consumers.

The six GEM passenger and utility models are legal on most streets posted 35 mph or less and have many of the same safety features of regular cars, but are much more economical in price and fuel consumption. GEM cars are eligible for incentives and tax credits from clean-air districts and other governmental agencies.

To date, GEM cars have been driven more than 350 million emission-free miles and have saved more than 16 million gallons of gasoline. They have also prevented more than 180 tons of ozone-producing pollutants from reaching the air.

For more information, to price your own GEM car or locate a local dealer, visit www.gemcar.com or contact Tyler Barnett at 323.937.1351 or tyler@barnettellman.com.

About Cap Cana:

Cap Cana is located on the eastern tip of the Dominican Republic, just seven minutes away from the Punta Cana International Airport. It is an exclusive, luxurious tourism and real estate community known for its ambitious dimensions, impeccable array of services and amenities, and incomparable architectural design that blends perfectly with its surrounding beauty.

Currently, Cap Cana is home to the Punta Espada Golf Course, designed by Jack Nicklaus and operated by Troon Golf; headquarters to the PGA Tours Champion's Tour since 2008 and listed by Golfweek as the number one course in the Caribbean and Mexico. Its second golf course, "Las Iguanas" is 70% complete, and is due to open by the end this year. Cap Cana's Marina is fully operational, and has boat slips available for yachts up to 150 feet, surrounded by elegant shops and gourmet restaurants. Cap Cana also offers world class spas, exclusive memberships to exquisite clubs, a wide variety of activities and amenities, and an educational district which includes the leading bilingual Cap Cana Heritage School.
